INTRODUCTION.

The Descriptive Catalogue of Tamil manuscripts in this Library has been issued in seven volumes and is still in progress. This series has been issued by subjects in Volumes I to V; and Volume VI and VII are supplemental volumes for which a Subject Index is added at the end of each volume. The descriptive catalogue deals with manuscripts that were acquired for the Library till the end of 1910.

The manuscripts that have been acquired since 1911 for the library are described in a new series called " The Triennial Catalogue of Manuscripts—Tamil ", each volume containing the description of the collections made during a triennium. Each triennial catalogue contains separately an Author Index, a Subject Index, and a General Index. Triennial Catalogues ending with 1947 have already been issued in nine volumes and the rest are in progress.

The names of the authors of a few works are not known. Such works have not been included in this volume as this is only an Author Index. The number of copies available in each work is also not given as it will be out of place in an Author Index.

An Alphabetical Index to the titles of Tamil manuscripts in this Library has already been issued. Volume II is being issued as a supplement bringing the titles up to 31st March 1948. An Alphabetical Index of the Local Records, which is in the Press will be issued as Volume III.

The volume that is now issued is an Author Index to all the Tamil manuscripts listed in the above volumes and is a companion volume to the Alphabetical Index volume containing the titles of works in Tamil, where the numbers of the works and other important particulars are given.
